PINAOLA COUGH BALSAM is excellent for all throat Inflammations and for asthma. Consumptives will invariably derive benefit from its use. as it quickly abates the cough, renders expectoration easy, assisting nature in restoring wasted tissues. There is a large percentage of those who suppose their cases to be consumption who are only suffering from a chronic cold or deep seated cough, often aggravated by catarrh. For catarrh use Ely's Cream Balm. Both remedies are pleasant to use: Cream Balm, 50c, per bottle; Pinaola Balsam, 25c at druggists. In quantities of $2.50 will deliver on receipt of amount.

NEGRO AND A RAZOR.

He Fatally Slashes a Girl's Throat and Afterward Suicides.

LEAVENWORTH, Kan., April 10.—A double tragedy was enacted on one of the principal thoroughfares here yesterday afternoon. With a razor Bud Owens, a negro, cut the throat of Cora Boston, a negress 19 years of age and when pursued by a crowd of people who had witnessed the tragedy cut his own throat with the same weapon. Owens bled to death in a few minutes and the girl will die. Both were employed as servants at Forth Leavenworth. They were to have been married on April 2, but the girl had broken the engagement.

Accused of Murdering His Wife.

EAU CLAIRE, Wis., April 10.—The inquest on the death of Mrs. Kate O'Donnell, whose mysterious death in this city has caused a sensation in this section, has concluded its work, bringing in a verdict that her death was caused by strychnine poisoning and that the poison was administered by her husband. It was stated at this inquest that the man wanted to get rid of his wife in order to marry a young woman named Leclaire, with whom he had been intimate, and who testified to that effect.

He Lied a Few Dollars.

PARIS, Tex., April 10.—Five men, one of whom was masked, went to the residence of Dr. Cooper at Balvin, I. T., last night and demanded his money. They asked for $7,000. He told them that he only had $3. They ransacked the house and found $5,000 in a small trunk. They then left and are supposed to have gone to the mountains.

SHORT WIRINGS.

The treasury yesterday lost $114,200 in gold, leaving the true amount of the reserve $127,795,910.

Battleship Indiana floated out of the drydock yesterday and will be immediately attached to the north Atlantic squadron.

HOUSE NONCONCURS

Postoffice Appropriation Bill to Be Referred to a Conference.

MR. MANTLE DISCUSSES SILVER.

Leaders of Labor Organizations Protest Against the Treatment of Machinists In Navyyards—New Mexico Statehood Bill Will Be Favorably Reported—Bill to Admit Arizona Postponed.

WASHINGTON, April 10.—The house yesterday, after debating the bill to abolish compulsory pilotage on sailing vessels engaged in the coastwise trade, defeated the measure by a large majority, 57 to 117. The District of Columbia appropriation bill, which was recommitted early in March after a protracted fight against appropriations for private and sectarian charitable institutions, was brought into the house with the specific appropriations stricken ont and containing in lieu thereof an appropriation of a lump sum for charities to be expended under the direction of the district commissioners, with the proviso that no part of the appropriation should go to institutions in ecclesiastical or sectarian control. The feature of the debate was a vigorous attack on the A. P. A. by Mr. Fitzgerald (Dem., Mass.)

The house nonconcurred in the senate amendments to the postoffice appropriation bill and agreed to a conference. Messrs. Loud (Rep., Cal.), Smith (Rep., Ills.) and Kyle (Dem., Miss.) were appointed conferees.

A resolution was adopted calling on Secretary Olney for information relative to any efforts made by the government to secure the liberation of Mrs. Maybrick, now confined in an English prison under life sentence for poisoning her husband.

TARIFF SILVER BILL.

Mr. Mantle Says the Dingley Bill Is Not a Patriotic Measure.

WASHINGTON, April 10.—After being in retirement for some weeks the tariff silver bill was brought forward in the senate yesterday as a text for a speech by Mr. Mantle of Montana, one of the

SENATOR MANTLE.

five Republican senators who voted against considering the tariff. Mr. Mantle defended the course of the silver Republican senators, declaring that the Dingley bill was not framed as a patriotic measure. He urged that unsectional protection should be linked with bimetallism. A sharp tariff colloquy followed between Senators Mills, Hoar, Hawley and Mitchell, as to the effect of the Wilson bill on wool. Some progress was made on the Indian appropriation bill, but the sectarian school question went over until today.

The calendar was cleared of all private pension bills after an hour specially devoted to pensions.

WILL BE REPORTED FAVORABLY.

New Mexico's Statehood Bill to Be Voted on Soon—Arizona Bill Postponed.

WASHINGTON, April 10.—The house committee on territories has voted to report favorably the New Mexico statehood bill to the house and also decided to defer action on the Arizona bill. So evenly divided was the committee that the fate of the bill rested on a single vote. This vote decided to place the question of New Mexico's admission before the house for settlement and also sidetracked for the time the decision of Arizona's fate. There were six votes to report the New Mexico bill and four against a favorable report, while the vote on the question of tabling the Arizona bill was a tie, with five members on each side of the question. Those who voted to report the New Mexico bill were: Republicans, Scranton of Pennsylvania, Perkins of Iowa, Lefevre of New York, Avery of Michigan, Hadley of Illinois. Democrat, Cooper of Texas. Opposed—Republicans, Knox of Massachusetts, Taft of Ohio, Low of New York. Democrat, Owens of Kentucky.

TO AID ORGANIZED LABOR.

Protest Against Illtreatment of Union Men In the Brooklyn Navyyard.

WASHINGTON, April 10.—James O'Connell of Chicago, grand master of the International Order of Machinists, and Samuel Gompers of the American Federation of Labor, yesterday urged the committee on naval affairs to make an investigation of the treatment of machinists in navyyards. A resolution has been introduced by Represenative Otey charging that members of labor organizations are discriminated against by the management of navyyards, and particularly in the Brooklyn yard. The two speakers represented that Mr. Otey's charges are true and that the management of the yards is tyrannical and the system of appointment manipulated so that labor organizations are ill-treated.

River and Harbor Consideration.

WASHINGTON, April 10.—The senate committee on commerce has decided to take up the river and harbor bill today and to sit daily until its consideration is concluded. The committee will devote today, tomorrow and Monday to hearing senators who have amendments to offer and after that time will press the bill to final consideration as soon as practicable.

To Arm Naval Militia.

WASHINGTON, April 10.—In the senate Senator McMillan gave notice that he would make an effort to have the naval appropriation bill amended so as to provide $50,000 for arming and equipping the naval militia of the various states.

bruises

The wise farmer handles fruit very carefully. He knows that *the bruised spots are the first to decay.* So with your system. Don't let your cold continue. The hard efforts at coughing and the inflammation bruise the delicate lining to your throat and lungs. Disease germs like these bruised and weakened parts.

Scott's Emulsion of Cod-liver Oil, with Hypophosphites, will soothe the cough, relieve the inflamed membrane, and tone up the whole system.

SCOTT'S EMULSION has been endorsed by the medical profession for twenty years. (*Ask your doctor.*) This is because it is always *palatable*—always *uniform*—always *contains the purest Norwegian Cod-liver Oil and Hypophosphites.*

Insist on Scott's Emulsion with trade-mark of man and fish.

Put up in 50 cent and $1.00 sizes. The small size may be enough to cure your cough or help your baby.

VESSEL CAPSIZES.

Struck by a Squall In Mission Bay and Rapidly Sinks.

SAN FRANCISCO, April 10.—No stranger disaster ever happened to a vessel than the accident which has befell the British ship Blairmore yesterdad morning. While riding at anchor in Mission Bay the vessel was struck by a violent squall which, together with the swift flood tide, threw the craft on her starboard side, capsizing her completely and sinking her in less than 15 minutes.

Fifteen seamen struggled in the water. Six were confined in the hold and were probably pinned down by the falling dunnage used to hold the ship's ballast in place. The imprisoned sextette never reached the deck, and the bodies of the six are imprisoned in the steel hull. The Blairmore's masts lie level with the bay bottom under seven fathoms of water, and not a sign of the sailors' sunken tomb is visible above the waves. The unfortunates who lost their lives were:

T. LUDWIG, first mate.
HENRY CLARK, seaman.
ROLAND SIEGEL, apprentice.
G. REINBAUM, seaman.
H. SINSTRAND, watchman.
SAM KERRY, steward.

The squall that caused the disaster was the most severe experienced on the south arm of the bay for many years.

MONTANA MINE HORROR.

Seven Imprisoned Miners Are Given Up For Dead.

BUTTE, Mon., April 10.—Dispatches from Basin are to the effect that the fire in the Hope mine has been extinguished, but that seven imprisoned miners are without doubt dead as nothing can be heard from them. They are:

JOHN BUCKLEY, shaft boss.
PAT BUCKLEY.
MARTIN SULLIVAN.
HUGH MCKEOWN.
BARNEY WALL.
WILL BELDEN.
E. D. MCARTHUR.

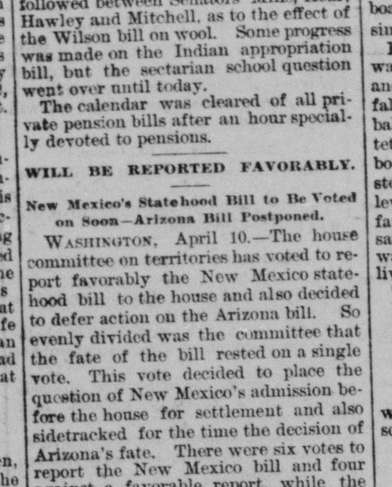

The shaft is filled with burned timbers, but that would not prevent the voices of the men being heard if they were alive, and therefore it is positive that they are dead. It will be several days before the bodies can be reached. The cause of the fire is still unknown.

Arrested For Murder.

WINNIPEG, Man., April 10.—The village of Holland, near here is excited over a cold blooded murder. Last Wednesday morning on the main road a mile from the village was found the body of Hannah Hatton, with the skull crushed in and throat cut from ear to ear. Last evening Robert Moran, a man servant in the employ of the young girl's father, was arrested for the deed.

Threw Rocks Across the Canyon.

FLORENCE, Colo., April 10.—News of a fatal accident at one of the grading camps on the Florence and Cripple railroad has just reached this city. Last night the night shift between Adelaide and McCourt set off a blast, which threw rocks across the canyon upon a tent occupied by a large number of the day force. One man was killed and many wounded, two at least fatally.

WOULD NOT BE FAIR

Mayor Taggart May Not Be a Candidate For Governor.

POLITICAL NEWS IN GENERAL.

Rhode Island Republicans In Session Today—First Voters Organizing In Winchester—Congressmen Johnson and Watson Acting Like Old Friends—Governor Bradley In the Race to Stay.

INDIANAPOLIS, April 10. — Mayor Thomas Taggart of this city, who has been credited with aspiring to the Democratic nomination for governor, is quoted by The News as saying that "the chances are 16 to 1 that I will not allow the use of my name before the Democratic state convention." Mr. Taggart says that while this is not an official announcement, he intends to make one along these lines at an early date. Friends of Mr. Taggart assign as a reason for this determination the fact that he was elected to the mayoralty for a term of two years and does not feel that it would be fair to the people to vacate before the expiration of that time.

There is no doubt that other aspirants have been waiting to hear from Mr. Taggart, and an official declaration of such purpose will bring about the entrance of other candidates for the place. Mortimer Nye, Gil Shanklin, George W. Cooper and others are being mentioned today as among the probabilities.

REED AND M'KINLEY.

Their Names Cheered at a Banquet at Hartford, Conn.

HARTFORD, April 10.—The event of the year in Republican circles of Hartford, the annual banquet of the McKinley club, was a complete success in point of numbers and enthusiasm. Over 200 covers were laid in the Allyn House banquet hall, many of those participating being state leaders who were in attendance at the meeting of the Republican league held yesterday. Governor Coffin, owing to an engagement at the Grand Army celebration in Waterbury, was not present, although he and Governor Griggs of New Jersey held a reception at the hotel early in the evening.

The dinner was presided over by Joseph L. Barbour. In his opening address he alluded to the Republican leader in whose honor the club was named. This brought a storm of applause from all parts of the room, and it was over a minute before Mr. Barbour could proceed. Hon. Henry C. Robinson, in an address of welcome, referred to the sound policy of Hon. Thomas B. Reed, and the mention of the speaker's name was followed by a demonstration quite as effective as the preceding one.

RHODE ISLAND REPUBLICANS.

Delegates to St. Louis From That State to Be Elected Today.

PROVIDENCE, April 10.—The Republican state convention for the election of delegates-at-large and alternates to the national convention at St. Louis is being held today in this city and is unmarked by any unusual interest. No platform is to be presented, the platform adopted at the convention for the nomination of state officers, a few weeks ago, which declared against free coinage of silver and for protection, being considered an adequate statement of the position of the Republicans of the state on national issues.

RETURN OF PEACE.

Congressmen Johnson and Watson Are Acting Like Old Friends.

INDIANAPOLIS, April 10.—A local evening paper prints a Washington special which says: "The house was treated to a 'David and Jonathan' scene this morning that speaks well for the amenities of Indiana politics. Congressmen Watson and Johnson sat side by side chatting and laughing like old comrades. The effect was not lost an the Indiana members, whose glowing faces showed that they were pleased and amused by this happy augury of the return of peace in the Sixth district."

First Voters Organizing.

WINCHESTER, Ind., April 10.—An organization of young men, who will cast their first presidential vote this fall, has been formed here. It is composed of about 40 members, and great enthusiasm is exhibited. This is the first organized club, so far, this campaign in this city, and it promises to be the best, as there are about 200 young men who have never cast a vote.

If a man knew he was going to be hanged, he would certainly make every effort to prevent it. He would do everything he could and strain every nerve to the last minute to get himself out of his predicament. Men have been saved from hanging after the rope was around their necks. There are ways of dying that are not so quick that are even more certain. The man who neglects his health, and who in sickness refuses to take medicine, really has the rope of disease around his neck. He will die if he doesn't throw it off. A man who would struggle against hanging may yet be careless about his health. He may be traveling straight toward consumption and pay no attention to it, and yet death by consumption is much more terrible than death by hanging. Dr. Pierce's Golden Medical Discovery will cure 98 per cent. of all cases of consumption. Consumption is likely to be caused by weakness and in its turn, it increases the weakness. The "Golden Medical Discovery" is an invigorating, strength-giving and flesh-making medicine. It increases the appetite, puts the digestive organs in perfect order, purifies and enriches the blood, and builds up firm, healthy flesh.

In one chapter of Dr. Pierce's great thousand page family doctor book—"The People's Common Sense Medical Adviser," are scores of letters from people who have been cured of consumption, lingering coughs throat and bronchial diseases by the use of "Golden Medical Discovery." Their full names and addresses are given and their cases were generally pronounced hopeless by the local doctors. Twenty-one (21) one-cent stamps, to pay for mailing *only*, will secure a *free* copy of this great book. Address, World's Dispensary Medical Association No. 663 Main Street, Buffalo, N. Y.

BACK FROM CHINA AND JAPAN.

Steamship Officials Bring Little News of the Epidemic There.

SAN FRANCISCO, April 10.—The Pacific mailship Rio de Janeiro arrived yesterday from China and Japan. The ship presented a delapidated appearance, nearly all of her cabins and the woodwork on the upper deck having been consumed during the period on her last trip from this port when she ran short of coal.

The ship's officers bring but little news of the epidemic in the Orient. Hong Kong had been declared an infected port, and the steamship line from there to Vladivostock had suspended operations.

At Kobe a general quarantine station has been established and systematic efforts are made to combat the dread disease. Other than the black plague, cholera and smallpox in a virulent form have made their appearance.

In Japan more modern methods are employed than in China, and as a result the death rate is lower in the kingdom of the mikado than in the latter country.

BATTLE IN LOUISIANA.

Two White Men and Twenty-Five Negroes Reported to Have Been Killed.

LAFAYETTE, La., April 10.—Information received here from St. Landry parish says that Dr. F. G Martin, in command of some 500 men at Mallet, has been shot and wounded. No particulars can be obtained as to who shot Colonel Martin or the nature of his wounds. Dr. G. A. Martin, a resident of Lafayette and brother of Colonel Martin, was much concerned on receipt of the information and endeavored to ascertain definite news by telephone from his brother at Mallet, but could get no reply except that the colonel was not at home. Further information is that two white men and 25 negroes have been killed in the affray.

STONE MURDER CASE.

Smith Makes a Full Confession and Says the Devil Told Him to Do It.

AKRON, O., April 10.—In the presence of Detectives Doran, Decelle and Stenographer Milwer, Romulus Cottel, alias John Smith, the ex-hired man of the Stone family, yesterday made a written confession of the crime for which he is held. He is still calm and perfectly self-possessed. He retold the story of the brutal affair without flinching and said he did not care for the consequences of his act. The only excuse he would offer for the perpetration of the crime was "the devil told me to do it." A morbid crowd besieged the jail all day and the feeling against Smith at Tallmadge is high and trouble from that source is feared.

Anson B. Strong, who has been in jail on suspicion of being implicated in the crime has been released.

SAY THE BIDS ARE TOO LOW.

Only Two Offers For the Joliet Enterprise Company's Plant.

JOLIET, Ills., April 10.—The bids for the Joliet Enterprise company have been opened in the presence of Judge Dibell in the circuit courtroom. There were two bids, one from the Illionis Steel company, which offered $100,000, and one from the Consolidated Steel and Wire company, $101,157.75, for the plant and necessary appliances for operating it. Objections were made to their acceptance. Judge Otis of Chicago, and George S. House of Joliet, who represented the parties holding mortgages against the concern, did not want the bids accepted, as they were too low. The judge heard the statements of the attorneys and gave them and all others interested until tomorrow to file their objections to the bids.

CONVENTION OF PEGG HEIRS.

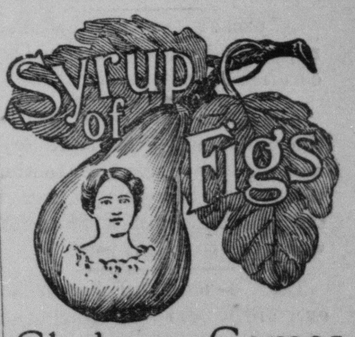

They Will Meet In Columbus, O., to Hear a Legal Report.

ANDERSON, Ind., April 10.—The Pegg heirs decided to hold their annual convention in Columbus, O., tomorrow. They will receive the report of their attorneys and will institute their claim to property in the heart of Philadelphia extending to Broad street. The alleged estate is probably the largest on the continent, being valued at $180,000,000.

Watching Rev. Knapp's Case.

BOSTON, April 10.—Rev. Judson Smith, D. D., secretary of the foreign department of the American board for foreign missions, states that private assurances have been received that the United States government is giving careful attention to the case of Rev. George P. Knapp of Bitlis, eastern Turkey.

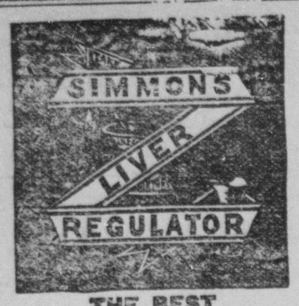

Syrup of Figs

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

THE BEST

SPRING MEDICINE

is SIMMONS LIVER REGULATOR—don't forget to take it. The Liver gets sluggish during the Winter, just like all nature, and the system becomes choked up by the accumulated waste, which brings on Malaria, Fever and Ague and Rheumatism. You want to wake up your Liver now, but be sure you take SIMMONS LIVER REGULATOR to do it. It also regulates the Liver—keeps it properly at work, when your system will be free from poison and the whole body invigorated.

You get **THE BEST BLOOD** when your system is in A1 condition, and that will only be when the Liver is kept active. Try a Liver Remedy once and note the difference. But take only SIMMONS LIVER REGULATOR—it is SIMMONS LIVER REGULATOR which makes the difference. Take it in powder or in liquid already prepared, or make a tea of the powder; but take SIMMONS LIVER REGULATOR. You'll find the RED Z on every package. Look for it.

THE REPUBLICAN PLATFORM.

The following plank in the National Republican platform adopted at the convention held at Minneapolis, Minn., in 1892, on the silver question, is good enough for any true American to stand upon, it seems to us:

The American people, from tradition and interest, favor bimetalism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation, as will secure a maintenance of the parity of values of the two metals, so that the purchasing and the debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workingmen, demand that every dollar, paper or coin, issued by the government shall be as good any other. We commend the wise and patriotic step already taken by our government to secure an international conference to adopt such measures as will insure a parity of value between gold and silver for use as money throughout the world.

A RECENT law in New York requires railroads to carry bicycles free for passengers.

THE enthusiasm developed by the mere mention of McKinley's name in republican conventions this year is the best answer to the question whether protection will be an issue this year.

THE deficit-tariff has lacked over $76 000,000 of bringing in enough money to pay running expenses of the government during the nineteen months it has been in operation.

DUN'S Mercantile Agency states: "Eighty-five per cent of all the concerns that have failed in the United States during the past ten years are houses that attempt to do business without advertising."

THE REPUBLICAN plurality of 11,278 in Rhode Island breaks the record, with the exception of the year 1862, when a republican war governor was elected without opposition. The first straw of 1896 comes from a small state, but it is significant.

IF REPUBLICANS stand together as they ought 1896 will witness the largest victory in the history of the party.

IN KENTUCKY three districts have selected their delegates to the St. Louis convention and four of the six delegates are instructed for McKinley.

BOSTON is about to make an experiment in high liquor license. Sixty hotels will be called on to pay $2 000 each instead of $1 000, as formerly, and the tax of retail dealers will be $1,000 each. These are said to be the highest licenses yet required in this country.

THE atmosphere of Washington is so conducive to political goodfellowship, and the lion and the lamb so often lie down there together, that it is not surprising to learn that since their return to the capital Messrs. Johnson and Watson have entirely ignored their recent contest and become quite "chummy." A manly man respects a foeman worthy of his steel.—Indianapolis Journal.

AN EFFORT is being made to create the impression that McKinley sentiment and enthusiasm is abating in some portions of this state. There is no evidence which tends to establish that fact in this quarter. Six weeks ago there was probably 80 per cent. of the republican vote for McKinley, to-day it is no exaggeration to say there is 90 to 95 per cent.—Anderson Herald.

THERE is a growing earnestness on the part of the public in the matter of good roads. It is begotten of an improved understanding of their needs and uses. Even the farmers, who have little money to spend and spend what they must grudgingly, are learning that it is economy to their horses, wagons and themselves to have roads that are open at all times.

SPANISH sentiment seems to be growing more favorable to Cuban freedom. Many of the Spanish newspapers are reported as expressing mournful regret that the various Spanish governments have not themselves understood the expediency of putting into force at the very beginning of the present insurrection the home rule bill and the tariff reforms voted by parliament last year, and which they will now have to carry out awkwardly under pressure of circumstances and foreign intervention.

THERE are no elections more important to the people than those affecting local government. Our city officers have the care of our streets, attend to the money matters of the city, select the school board and in a hundred ways affect the well being not only of the city as a corporate body, but of the citizens as individuals. The republicans have shown their care for the best interests of the city and it will be in the interest of the taxpayers to continue them in power.

WHEN the president of the United States just before the holidays appealed to congress to remain at its post instead of going home at the holiday season, as had been the custom for many years, and urged that it do something to relieve the treasury of its embarrassments, the republican house at one rescinded its resolution for a recess and promptly passed the necessary bills, bills that would have stopped the constantly recurring deficits. Those bills went to the senate and there the democrats with the aid of the populists tied them up and strangled them.

THE TEACHERS who have been in session at Washington yesterday to-day are to be congratulated upon the opportunities afforded in these days for exchange of views and broadening of ideas. The teacher is a very potent force in moulding the life and character of a community. On the the individual character being reared in the school room to-day depends the ultimate solution of many perplexing national and state questions over which the men of to-day are wrestling. Upon the susceptible child mind the teacher impresses his own personality with a lasting effect which many, even the teachers themselves, do not realize.

THE BRIDGE BUILDERS.

We build a bridge of trust
From night to morn,
A mystic arch of dreams
Till day is born.

We build a bridge of trust
From friend to friend,
And often break the span
We cannot mend.

We build a bridge of trust
From shore to shore,
And shadow figures steal across
At peace forevermore.

THE USE OF COCAINE.

Horse Trainers and Jockeys Find It Useful as a Bracer For Their Nags.

Within a recent period cocaine has come into use on the race track as a stimulant. Horses that are worn and exhausted, or are uncertain as to speed and endurance, are given 10 to 15 grains of cocaine by the needle under the skin at the time of starting, or a few moments before.

The effects are very prominent, and a veritable muscular delirium follows, in which the horse displays unusual speed and often unexpectedly wins the race. This agitation continues, and the driver has difficulty in "slowing down" the horse after the race is over; not unfrequently the horse will go half way round again before he can be stopped. The exhaustion which follows is not marked, except in the great thirst and loss of appetite. Sometimes diarrhea and trembling follow. But good grooms give unusual attention to rubbing and bathing the legs in hot water and stimulants. The general effect on the horse is depression, from which he soon recovers, but it is found essential to give cocaine again to make sure of his speed. The action of cocaine grows more transient as the use increases, and when a long period of scoring follows before the race begins drivers give a second dose secretly while in the saddle. Sometimes the horse becomes delirious and unmanageable and leaves the track in a wild frenzy, often killing the driver, or he drops dead on the track from cocaine, although the cause is unknown to any but the owner and driver. Some horses have been given as high as 20 grains at a time, but this is dangerous and only given to wornout animals, who may by this means win a race. It appears that cocaine is only used in running races and as a temporary stimulant for the time. It is claimed that the flashing eyes and trembling excitement of the horse are strong evidence of the use of cocaine.—Cincinnati Enquirer.

Decrease of Railway Building.

It is estimated that less than 2,000 miles of railway track were laid during 1894. The new mileage of 1894 is less than in any other year in the last 20, and it is the least in the last 35 years, with the exception of 1865, 1866 and 1875.

Horoscope For Girls.

Here is an old astrological prediction of the character of a girl born in each of the months.

January—She will be a prudent housewife, given to melancholy, but good tempered and fond of fine clothes.

February—An affectionate wife, and tender mother and given to dress.

March—A frivolous chatterbox, some what given to quarreling, and a connoisseur in gowns and bonnets.

April—Inconstant, not very intelligent, but likely to be good looking and studious of fashion plates.

May—Handsome, amiable and given to style in dress.

June—Impetuous; will marry early, be frivolous and like dressy clothes.

July—Possibly handsome, but with a sulky temper and a penchant for gay attire.

August—Amiable and practical, likely to marry rich and dress strikingly.

September—Discreet, affable, much liked and a fashionable dresser.

October—Pretty and coquettish and devoted to attractive garniture.

November—Liberal, kind, of a mild disposition and an admirer of stylish dress.

December—Well proportioned, fond of novelty, extravagant, and a student of dressy effects.

The estimated population of the greater New York is about 3,200,000 which will exceed largely the prospective population in 1897 of the city of Paris, and put the greater New York second to London.

If a small bottle of Shaker Digestive Cordial does you no good, don't buy a large one.

"Provide all things; hold fast that which is good." It's not good for everybody, only for the thin, pale, sick, weak and weary. For those who are starving for want of digested food. For those who cannot get fat or strong, because their stomachs do not work as they ought to. These are the people, millions of them, whom Shaker Digestive Cordial will cure. Food makes strength, muscle, brain, blood, energy—after it is digested. If not digested, it will do you no good at all. Shakers Digestive Cordial helps your stomach to digest your food and cures indigestion permanently. When you've tried a small bottle, you can tell. Sold by druggists. Trial bottle 10 cents.

Farmer's Sudden Death.

COVINGTON, Ind., April 10.—John Ramser, a prominent farmer living four miles south of this city, came to town yesterday afternoon to do some trading, apparently in his usual health. After attending to his business he stepped into Buckner's drug store, and, with the remark that he did not feel well, sat down and expired almost instantly. Heart failure is supposed to be the cause.

Missionary Society In Session.

BOURBON, Ind., April 10.—Delegates to the missionary society of Logansport presbytery are in session at Plymouth, with Mrs. Putnam of Logansport, president. Prominent workers are Mrs. Kendall, Laporte; Mrs. Wells, Fort Wayne; Mrs. Horning, Logansport, and Mrs. Swift, Pittsburg, who made addresses.

Kicked by a Vicious Horse.

ROANN, Ind., April 10.—A wellknown and highly respected young man named Orla Bloxon is lying at the point of death at his home in this place, the result of being kicked in the face and head by a vicious horse while passing behind him in the stable. His doctor says he cannot get well.

Teachers In Session.

WASHINGTON, Ind., April 10.—The 20th annual meeting of the Southern Indiana Teachers' association opened in this city yesterday with a large attendance. Teachers and educators are present from all parts of the state. The meeting concludes today.

ATTEMPTED MURDER.

Michigan Man Narrowly Escapes From an Unknown Assassin.

MUSKEGON, Mich., April 10.—Word has been received here from Pentwater of a bold attempt by some unknown man on the life of William B. O. Sands, president of the Sands & Maxwell Lumber company. Mr. Sands was on his way home, when a man jumped from behind a corner of a street and commenced firing at him with a gun. Mr. Sands started to run across the street to his home. The wouldbe assassin followed, still keeping up the fire. Mr. Sands ran into his yard and around his house and still the villain followed. Five shots were fired in all, three finding resting places in his right arm and one in the leg. The arm is badly shattered and will have to be amputated.

He Is a Hustling Heir.

PAWPAW, Ills., April 10.—George Wheeler of this place, a freight conductor on the Chicago, Burlington and Quincy railroad, has received word that he is heir to a large portion of an estate left by the death of an uncle in England. The estate is valued at $900,000. Mr. Wheeler took the first train to Aurora to consult lawyers.

Thought to Be In Chicago.

PORT HURON, Mich., April 10.—A report that Hiram A. Waite, Port Huron's controller, who mysteriously disappeared 10 days ago, has been seen in Chicago recently, seems corroborated by further evidences to that effect. Waite's description has been forwarded to the Chicago police.

Another Brave Soldier Gone.

WILKESBARRE, Pa., April 10.—Philip G. Killian, a veteran of the late war, died at his home in West Pittston yesterday, aged 55 years. Mr. Killian enjoyed the distinction of having been the Union soldier who cut down the rebel flag which floated over Fort Sumter.

To make money you now must be willing to spend some. Many seem to think that it is only a new article that needs advertising but that is a great mistake. Let every man advertise his wares; others have made fortunes doing it. Nothing is too common to have its sale materially increased by newspaper publicity. Judicious advertising is not only the best way to make customers, but it is the cheapest as well. It gets them and it keeps them for you. There is strong competion now in all lines of business. You need advertising to give you your share of the trade, and you need it done in the most skillful and intelligent way. The best advertising medium in this neck of the woods is THE REPUBLICAN. c3t

During the winter of 1893, F. M. Martin, of Long Beach, West Va., contracted a severe cold which left him with a cough. In speaking of how he cured it he says: "I used several kinds of cough syrup but found no relief until I bought a bottle of Chamberlain's Cough Remedy, which relieved me almost instantly, and in a short time brought about a complete cure." When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. It has been in the market for over twenty years and constantly grown in favor and popularity. For sale at 25 and 50 cents per bottle. C. W. Millhous, The Druggist.

WANT A NEW TRIAL

Brief Submitted In Behalf of Rev. William E. Hinshaw.

FARMERS BOYCOTT A VILLAGE.

Meeting of Logansport Presbytery—Scottsburg Citizen Wants Possession of His Property—Loss of an Arm In a Sawmill—Fatal Runaway Accident—Judgment For Injuries—Indiana Notes.

INDIANAPOLIS, April 10.—The attorneys for Rev. William E. Hinshaw who, by the verdict of a Hendricks county jury, is serving a life term in the state prison south for the murder of his wife one year ago last January in the village of Belleville, have printed an 82-page brief in which they attempt to convince the supreme court that the minister is innocent. The brief sets out the history of the case, and asks for a new trial on the following grounds:

(1) Misconduct on the part of one of the jurors, Alexander Surber, in that he had stated in substance upon his preliminary examination that while it was true he had formed and expressed some opinion as to the guilt or innocence of the accused, yet it was not such an opinion as would affect his conduct upon the trial of the cause, while, in fact, he had formed and at that time entertained a strong opinion that the defendant was guilty, and which opinion it would require strong evidence to remove. (2) Error of law occurring upon the trial of the case. (3) Newly discovered evidence, touching the testimony of Linnie Rushton and Eva Worrell, both witnessess for the state. (4) That the verdict of the jury was contrary to the law and the evidence.

VILLAGE BEING BOYCOTTED.

Farmers Have Signed an Agreement Not to Trade In Wakarusa.

ELKHART, Ind., April 10.—The farmers residing outside the corporation limits of Wakarusa have inaugurated a boycott against the village, and many have signed an agreement to do no more trading in the town. The cause of this action is due to the fact that a new schoolhouse was built in Wakarusa by the township, and since the village has been incorporated, it takes in the new building. Another grievance was a tax voted to aid in the construction of the Wabash road through the township.

Wants Possession of His Land.

SCOTTSBURG, Ind., April 10.—Suit has been filed here by Eugene P. McCaslin against John B. Butt and 13 interested parties to quiet the title to land he purchased at a delinquent tax sale two years ago. As soon as the time expired, McCaslin received his deed, but since that time has been unable to gain possession of his land, as Mr. Butt resides on it and will not yield possession.

Meeting of Logansport Presbytery.

LAPORTE, Ind., April 10.—A special meeting of the Logansport presbytery has been called, to be held at Winamac next Wednesday, when action will be taken in continuing Rev. Ezra Butler Newcomb as pastor of the First Presbyterian church of this city, or leaving him free to accept a call to the pastorate of a church at Keokuk, Ia.

Fatal Runaway Accident.

HUNTINGTON, Ind., April 10.—Frederick Rohlfling, an old German residing about four miles west of this city, was killed in a runaway accident. His team becoming frightened at a freight train, dragged him about 40 rods. His skull was crushed.

Gets Judgment For Injuries.

JEFFERSONVILLE, Ind., April 10.—L. D. White, who is gaining a reputation as a man embroiderer, has been given $3,500 for injuries received at the carworks two years since. He brought suit for $10,000.

Sentenced For Hogstealing.

VALPARAISO, Ind., April 10.—Charles Hamilton, a farmer, was sentenced to the penitentiary for three years yesterday afternoon for stealing a hog, valued at $15. Two of the jury favored 14 years.

Lacerated In a Sawmill.

VEEDERSBURG, Ind., April 10.—William Burris, a prominent citizen of Waynetown, had his arm and hand badly torn in a sawmill yesterday. He will lose the arm.

Burned by an Explosion.

Too many young people get the notion into their heads that to labor with the hands has a tendency to degrade. Such an idea is wrong, no matter from what point it is viewed. It is far better to do any sort of honest toil than to loaf about the streets. It is better to earn an honest living by the industry of the hands than to live at the expense of parents or the sacrifice of honor. Industry and constant work are the safeguards for society as a whole, and no doubt the saving mark for the individual. Let all young men and women keep in mind the fact that to be squeamish over honest toil does not speak well for their future. —Muncie Herald.

Mr. Thos. Eggers, 139 Florida St. San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at Andrews and Co's. Drug Store. Regular size 50c. and $1.00.

Card of Thanks.

We desire to express our sincere gratitude to the friends and neighbors who so kindly showed their sympathy in the death of our granddaughter, Gracie Railing, and our daughter, Nellie Thicksten. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

A resolution by Gibson was adopted expressing the sympathy of the council with Marshal Thickston in the bereavement in his family.

Resolved, that we, the common council of the city of Seymour, desire to express our sympathy and condolence to our city marshal, Mr. A. Thickston, in his sad bereavement in the loss of his daughter and assure him of our earnest hope that the remaining members of his family may soon regain their complete health.

The exemption of the pants factory from taxation was referred to the judiciary committee and city attorney.

The street commissioner was ordered to start the fountains in the different wards, except the one on South Chestnut street. This one was referred to the committee on water to relocate where property owners desired it.

On motion by Barkley, Mayor appointed a committee to investigate the best way to get rid of garbage. Committee: Barkley, Goodale and Schwing.

The street commissioner was ordered to look after certain streets and alleys.

Bids were opened for laying cement walks about city building and school house and contract was awarded to Frank Lucas, the lowest bidder, at 9½ cents per square foot.

Bids were opened for grading and graveling alley in block L, Butler's addition, and was awarded to David Harris, the lowest bidder, at 40 cents a yard for gravel and 7 cents a yard for grading.

Goodale moved that laying of cement walk be completed by May 20.

After the adjournment of the council the members witnessed the operation of a fire alarm system, which had been set up in the room by an agent, who wishes to put such a system in operation in Seymour. The test was entirely satisfactory. The system is the same as that in operation at Columbus, Jeffersonville, Washington and many of the large cities of the country.

Ministers Should Use Dr. Miles' Heart Cure.

THERE IS NO PROFESSION, whose labors so severely tax the nervous system, as that of the ministry. The derangement of the nerve centers of the brain by over work, frequently brings on attacks of heart trouble, and nervous prostration.

Rev. J. P. Kester, M. D., Pastor U. B. church, London Mills, Ills., himself a physician, writes Feb. 26, 1895: "Heart affection and nervous prostration had become so serious last fall that a little over work in the pulpit would so completely prostrate me that it seemed certain I must relinquish the work of the ministry entirely. Heart palpitation became so bad that my auditors would ask me if I did not have heart disease. Last November I commenced taking Dr. Miles' New Heart Cure alternately with Dr. Miles' Nervine and derived the greatest possible benefit. I have just closed revival work of 10 weeks, preaching nearly every night and twice on the Sabbath. I can speak for hours without suffering as I formerly did. Hard working ministers should keep Dr. Miles' grand remedies on hand."

Charles F. Remy.

Charles F. Remy, of Columbus, candidate for Reporter of the Supreme Court, was born in Bartholomew county, February 26, 1860. He was a farmer boy until he entered the preparatory department of Franklin college in the fall of 1879. From that institution he was graduated in 1884. During his senior year he represented his college in the State oratorical contest and won second honors. Upon leaving college he went to Lexington, N. C., and taught Greek and mathematics in the Southern Normal for two years. In 1887 he began the study of law in the office of Hacker & Strickland, at Columbus, Ind. In June, 1888, he was graduated from the law department of the University of Michigan. Since that time he has been in the practice of law with Marshall Hacker, of Columbus. In politics Mr. Remy has always been republican. He was elected representative from his county at the last election, leading his ticket and receiving 250 votes more than the head of the State ticket. He served one year on the judiciary committee and as chairman of the committee on benevolent institutions. He is a Knight of Pythias and is serving on the committee on constitution and by-laws of the Grand Lodge at this time.—Indianapolis News.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents and $1 00 per bottle at J. H. Andrews and Co's. Drug Store.

Judge Banta Dead.

Judge David D. Banta, dean of the law school of Indiana University, died yesterday morning about 9 o'clock, after an illness of several months. The fatal illness resulted from a trip to England during the summer. He contracted a cold while making a long ride in Scotland. Judge Banta was one of the best known jurists of the State, and was born and reared at Franklin, this State. He graduated from Indiana University in 1855, and was a leading alumnus of the institution, and for many years was a member of the board of trustees. In 1889 he was elected dean of the law school of the institution, which position he held until the time of his death. The funeral will take place Sunday morning, and the remains will be taken to Franklin for burial.

The Crothersville Canning Company has contracted for the product of 200 acres of tomatoes and 50 acres of sugar corn. This industry is proving to be a great benefit to the community.—Crothersville Commercial.

TOUCHED A SECRET SPRING.

The Accidental Discovery of a Man Who Bought an Old Desk.

Henry J. Crocker is being gazed upon with envious eyes just now by Maurice Casey and Harry Lamberton. These three gentlemen occupy the same office at 508 California street and have a similar love for that which is artistic and unique. This made them all desire the possession of a unique brass bound writing desk which Crocker succeeded in winning, and in which he has just found treasures.

The writing desk was offered them by a dealer in curios named Belasco. Belasco, it will be remembered, a fortnight ago bought some old boxes which once belonged to Conley Leach. He paid $10.50 for them and found among the other contents old coins and rare stamps of the value of $800. He had come to sell Mr. Crocker some of these stamps when he began telling about the writing desk.

The next day he brought the desk up. Its age was apparent. It was made of rosewood, was bound heavily with brass and was prettily inlaid with the same metal. Substantial brazen handles sunk in brass shields showed that the desk was not a mere ornament, but was intended for traveling. This fact was attested also by the capacious interior, which was divided off into smaller compartments by shelves of sandalwood.

The workmanship shown in the chest and its oddness made each man desirous to become the owner. None wished to put up the entire cost, however; so, after they had lowered the dealer's price of $7 to $4.50, they each contributed $1.50, and the ownership of the desk was left to the arbitrament of fate.

It was suggested first that they throw dice for it. Nobody had any dice, so Mr. Crocker borrowed three 50 cent pieces from the janitor of the building. Then they "matched." The odd man was to take the desk.

At the word the three put down their coins. When Casey removed his palm, the money showed tails. Mr. Crocker's coin was heads. Mr. Lamberton's coin was still concealed. When he withdrew his hand, a tail was exhibited, making Mr. Crocker winner.

That evening Mr. Crocker prepared to take his prize home. Casey at once protested.

"You don't know anything about that desk," he said. "It might give your whole family smallpox or something else that's dreadful. You'd better get the old thing disinfected before you take it over to your house."

Then he smiled in a superior way and told how glad he was he hadn't won the desk. As the days passed and the antique bit of furniture still remained in the office Mr. Casey grew to be quite a chaffer. The result was that the writing desk was a matter of constant thought, and Monday afternoon, spurred on by Mr. Casey's chaffing, Mr. Crocker looked it over thoroughly to see if he could not convert it to some use about the office, since he could not take it home.

The desk was a strong one, and with the cubbies removed would make an attractive receptacle for papers. While Mr. Crocker was examining its interior to see how it could be altered his finger touched a hidden spring. A panel in the side of the desk at once fell out, revealing three small drawers.

His cry of astonishment at once brought Casey and Lamberton to his side. Their chaffing all died away as the first drawer showed two $50 bills issued nearly 50 years ago, but undoubtedly genuine. The second drawer contained an old fashioned gold watch curiously carved and a daguerreotype on the back of which was an almost obliterated inscription. Some earrings of ancient pattern and a finger ring beautifully chased rested on cotton batting in the third drawer.

The jewelry was so curious and the hiding place so deftly fashioned that the spectators were dumb with astonishment. When they regained their tongues, they overwhelmed Mr. Crocker with congratulations. Casey admitted that there wasn't so much of a "josh" on Crocker after all.

"What will Belasco say?"

But Belasco didn't say a thing. As soon as he heard that he dropped down from $7 to $4.50 on a "lot" consisting of two $50 bills and some valuable jewelry he made a bee line for his store. Word came from the neighbors that the curio dealer was carefully prying out the entire interior of all the many desks, chests and boxes in his possession. There were no reports of his having found anything. Mr. Crocker is looking for more brass bound rosewood desks with hidden springs.—San Francisco Call.

It's All Our Fault, It Seems.

America is not exactly the quarter whence one would have expected a complaint of the degeneracy of the English language, such as is raised in the current number of Lippincott's Magazine. It is very likely true that the art of speaking and writing English, as the author of the article maintains, is suffering a change for the worse, and that grammar and composition in these "higher education" days are deemed unworthy of scholastic attention. But it is absurd to ignore the facts—which, however, the writer in Lippincott's could hardly be expected to recognize—that the degeneracy of the English tongue, so far as it has gone, is very largely due to the extent to which it has been Americanized within recent years. Most of the vile phrases and colloquial atrocities that nowadays find their way into print are direct importations from the "other side." If, therefore, Americans are really anxious, as this article implies, to prevent the murder of English, the reply on our side is obvious, "Que messieurs les assassins commencent."—London World.

Women on the Bicycle.

What a pretty thing a woman on a bicycle is! Her pose is good. She sits erect and rides easily, gracefully. Most men stoop while riding. Women sit erect. Men always seem to be on business bent and in a hurry. Women appear to ride for pleasure and in no hurry. Men have the bicycle face, arising, it is said, from the care they have to bestow to avoid accident. Women have the air of easy indifference, unconsciousness of risk. They ride as the true goddess walked.—Cincinnati Commercial Gazette.

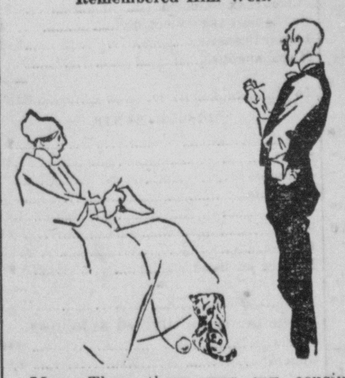

It Was a Lucrative Trade.

The wife of a minister in Cincinnati traded a barrel of his old sermons not long ago for a new bread pan. The next spring the rag man came around again and asked if she had any more sermons to sell.

"Why do you want sermons?"

"Because I did so well with those I got here a year ago. I got sick in the summer, and a preacher in the country boarded me and my horse three months for that barrel of sermons, and he has since got a great reputation as a preacher up there. I will give you 5 cents a pound for all you have got."—Chicago Record.

Remembered Him Well.

Mrs.—Then there was my cousin George. You remember George?

Mr. (the undertaker)—Ay, ay! Poor George! Sixty-eight by twenty-two, by eighteen, plain oak in brass hangings.—Idler.

Half Witted, but Level Headed.

No one near Crab Orchard, Ky., knew how old or how young Zeke Morse was 30 years ago. Old men claimed that he looked just the same and acted just the same when they were boys. Some old men have lied, even in Kentucky, but it would not be prudent to say so in their hearing down there.

Zeke Morse was half witted, and unlike most men in that fix he confessed it, which probably should be taken as an argument against the charge. One day old Dr. Breckinridge of Center college, Danville, and father of a well known ex-congressman, overtook Zeke Morse, and rising in his cab said:

"Zeke, why do you want to live?"

"I hain't nevah sed I keerd much to live," replied Zeke, pushing back his patch of a felt hat and looking into the doctor's small, gray eyes.

"Zeke," said the doctor, "as you don't care about living, I'll give you $1,000 if you'll let me kill you."

"See here, doc," said Zeke as he scratched his mop of red hair, "don't folks say I'm half witted?"

"I believe they do, Zeke."

"Well sah, ondah them sarcumstances I'll let you half kill me fo' half the money."—New York World.

The Brooklynite and the Swordfish.

"Step up and see the great sawed fish. It'll cost you but one dime," is printed in glaring type over a drop scene on which is a crude picture of a swordfish.

This invitation hangs in front of a small tent which is pitched on a vacant lot in Brooklyn.

The other day a trolley dodging perambulator pusher stopped and read the notice. He called the showman's attention to the way in which swordfish was spelled.

"Now," said the showman, "you just pay your 10 cents before you find fault, and if the name ain't spelled right I'll give you a dollar."

The trolleyite did as requested and gazed upon a codfish which had been sawed in halves.

"Now," said the showman, "are you satisfied? I'm a better eddicated man than most people knows on, and you ain't the first cove what's tried to kerrect me."—New York Sun.

After a Bargain.

"A dollar!" she exclaimed when the clerk had told her the price. "Why, that's exorbitant."

"We can't afford to sell it for any less," replied the clerk.

"Well, I know where I can get it for less," she returned, "and I am too good a business woman to pay more than a thing is worth."

And then she marched out of the store and paid 10 cents for car fare to go to a place where she could get the same thing for 99 cents.—Chicago Post.

A Good Speculation.

Philanthropist (joyously)—I am delighted to learn that you have promised your sick daughter $50 on the day she is well enough to go out.

Old Closefist—Yes, the doctor said she only needed encouragement.

"That will, no doubt, do her good. Fifty dollars is a good deal of money to her."

"Yes, and to me, too, but it would cost more than that to bury her."—New York Weekly.

BEAT THE TRAIN DISPATCHER.

This Operator Used to Get Sleepy and Had the Locomotive Wake Him.

Operators who keep lonely vigil at night in little out of the way railway stations lead lives which are anything but enviable. The usual hours are from 7 p. m. until 7 a. m., and how those 12 weary hours drag only a man having had experience knows.

On most railroads a night man at way stations must report to the dispatcher's office by wire as often as once an hour in order that the dispatcher may know that sleep has not overcome the senses of the lonely "owl." Now this very necessary thing—sleep—is the most bitter enemy the "owl" has to contend with, but the manner in which he indulges it is sometimes amusing, to say the least.

All sorts of contrivances to serve as an "eye opener" are conceived by the knights of the key, but the ingeniousness of a man who a few years ago "held down" a night station on the Fitchburg road caps the climax.

From the time of his first taking the position he was the source of more annoyance to the dispatcher because of his little "naps" than all the other operators combined. So after having been "hauled over the coals" innumerable times and the promise that the next offense meant dismissal Mr. "Owl" began to think.

Taking a stout cord and fastening it to the outer rail of the track in front of his window, he ran it through a hole into the office. Then perching himself upon a table he tied the cord around his waist, closed his eyes and slept on "without a care for the morrow."

When the first train came bowling into the station, the cowcatcher of the engine came in contact with the cord attached to the rail, and Mr. "Owl" suddenly found himself lying on the floor wide awake.

By this method he was always on hand to report the arrival and departure of trains, and the dispatcher in Boston wondered how it was that Mr. "Owl" had become so prompt.—Telegraphers' Herald.

ART OF REMEMBERING.

All Sorts of Systems Have Been In Use From Time Immemorial.

The art of rendering artificial aid to the memory by associating in the mind things difficult to remember with those which are easy of recollection is said to have originated with the Egyptians. The first person to reduce it to a system was, according to Cicero, the poet Simonides, who lived 500 B. C. His plan is known as the topical or locality plan and was in substance as follows: Choose a large house, with a number of differently furnished apartments in it. Impress upon the mind carefully all that is noticeable in the house, so that the mind can readily go over the parts. Then place a series of ideas in the house—the first in the hall, the next in the sitting room, and so on with the rest. Now, when one wishes to recall these ideas in their proper succession, commence going through the house, and the idea placed in each department will be found to readily recur to the mind in connection with it.

It is related that the mnemonic plan was first suggested to the poet by a tragic occurrence. Having been called from a banquet just before the roof of the house fell and crushed all the rest of the company, he found on returning that the bodies were so mutilated that no individual could be recognized, but by remembering the places which they had severally occupied at the table he was able to identify them. He was thus led to notice that the order of places may by association suggest the order of things.—Philadelphia Press.

The Chinchilla.

The tiny chinchilla, not more than 12 inches long, with a plump little body on short, stout legs, thrives only in the tropics. New York's supply of chinchilla skins comes from Peru and Venezuela chiefly. The little beasts have to be killed with the utmost precaution not to injure their fur, that grows on a skin nearly as tender and soft as a web of silk. They are not common animals nor abundant in their South American haunts, so that a perfect chinchilla skin when it arrives, customs paid, in the port of New York, easily fetches $10 or $12 for its hand's breadth of fur. To keep in good condition the delicate pelt and the making up of small bits into the large barrel shaped muffs and circular cape collars worn this season easily make a chinchilla wrap more costly than ermine or sable. A perfect skin, not larger than a small pocket handkerchief, is a revelation in fur growth. The texture of every hair is finer than floss silk, the length of it nearly an inch and the coloring about that of the soft undyed marabout feathers.—New York Sun.

A Historic Highway.

Massachusetts avenue, from Dorchester to the battlefield of Concord, through Boston, Cambridge, Arlington and Lexington, is a magnificent drive on a pleasant day, with a moderately dry roadbed and the absence of flying dust. More points of historic interest are in view in this continuous avenue of 20 miles than in any similar excursion route in the country, not excepting St. George's avenue, the ante-Revolutionary military road that traverses New Jersey 100 miles between the cities of New York and Philadelphia, passing through Newark, Rahway and Trenton.—Boston Budget.

Herbivorous Animals.

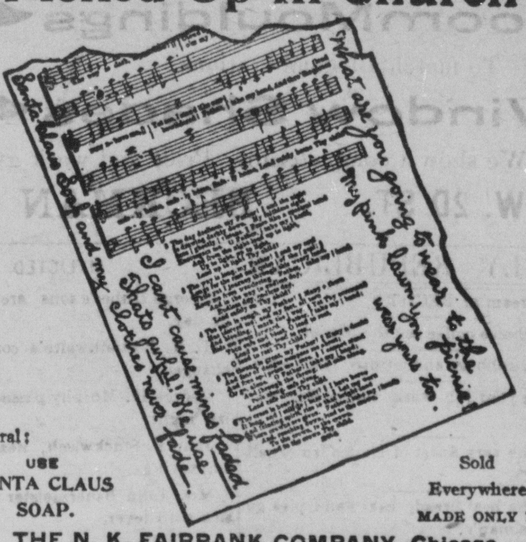

Herbivorous animals do not eat all of nature's menu. The horse refuses the water hemlock that the goat eats with avidity, and, on the other hand, the goat refuses some plants that are eaten by the sheep. The tobacco plant is avoided by all save the goat, man and the tobacco worm. Some botanists think that no plant is absolutely poisonous, but only relatively so, being harmful to only certain animals.

Those who are troubled with rheumatism should try a few applications of Chamberlain's Pain Balm, rubbing the parts vigorously at each application. If that does not bring relief dampen a piece of flannel with Pain Balm and bind it on over the seat of pain and prompt relief will surely follow. For sale by C. W. Millhous, The Druggist.

The Soldiers' Colony, Swan,

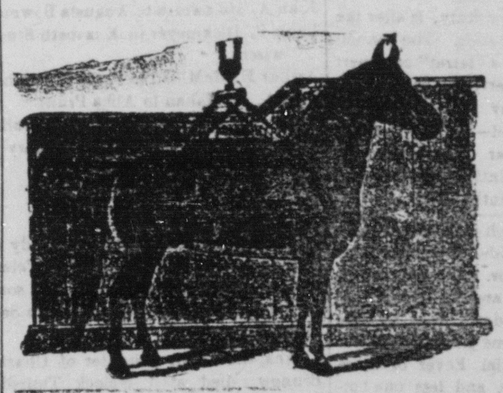

Is located in that section of Georgia traversed by the Georgia Southern & Florida Railway,

which is the only direct through route to the capital of the colony, connecting at Tifton with the Tifton & North Eastern Railroad for SWAN. By this route parties from St. Louis, Chicago, Indianapolis, Detroit, Cleveland and Cincinnati can secure sleepers with only one change (in Depot at Nashville) to Tifton. The section in which this colonoey is located has been well named THE GREAT FRUIT BELT OF THE SOUTH
for in it are located the largest peach orchards in the world, while Pears, grapes and Melons do equally well. The soil is easily cultivated and produces fine Corn Oats, Rye, Barley, Cotton, Sugar Cane Sweet and Irish Potatoes, Peas, and a variety of vegetables. The climate is mild and healthful. Lands conveniently located and can be secured for from $5.00 to $10.00 per acre, on liberal terms.

Where Disease Is Bred.

When a sewer is clogged or choked up the accumulations poison the atmosphere in its vicinity and bring about the conditions that breed disease. We all know that in time of pestilence every precaution is taken, not only to keep the sewers free and open, but even to remove all decaying matter from the community. The danger of infection is thus minimized. How few of us who pay taxes for the maintenance of sanitary bureaus for the public health think of an equal requirement for our individual welfare. The alimentary canal is the great sewer of the human system. When that is dammed up conditions are generated which invite fevers and such diseases as our nature inclines to. Constipation is a clogging of the natural drains, and nearly everything we suffer from follows this condition. It will not do merely to clear the drains from time to time. We must repair and improve the working power of the machinery whose function it is to perform this work. Smith's Bile Beans differ from pills in that they are more than a mere cathartic They not only stimulate sluggish bowels and clear the system of all disease breeding matter, but they remedy the evil complained of; they restore power and freedom of operation to the secreting organs and they tone up and strengthen the entire system. They are easy and soothing in action. Try them. 25 cts. a bottle, 5 bottles, $1.00. For sale by druggists and medicine dealers throughout the country, or by mail, postpaid, on receipt of price.
